3rd Asian Conference for Frailty and Sarcopenia

ACFS 2017

October 27-28, 2017

Seoul National University Bundang Hospital (SNUBH), Healthcare Innovation Park, Korea

ORGANIZED BY The Korean Geriatrics Society

WELCOME MESSAGE

On behalf of the Organizing Committee, it is my great honor and pleasure to invite you to Korea for the 3rd Asian Conference for Frailty and Sarcopenia (ACFS 2017) from October 27 to 28, 2017.

The ACFS has emerged as a leader in research on frailty and sarcopenia, bringing practical solutions to healthcare teams in Asia where population aging is an increasingly urgent concern. Interest and participation in past ACFS conferences have created great opportunities for geriatricians and researchers to network and collaborate.

The Korean Geriatrics Society (KGS) is proud to host the upcoming ACFS 2017 and plans to welcome around 300 experts from Asia and beyond. A stimulating scientific program will feature the most current topics related to Frailty and Sarcopenia together with ample occasions to socialize and build friendships.

In addition to the state-of-the-art facilities at ACFS 2017, the region of Gyeonggi-do and area surrounding the venue are rich with extensive green parks, historical sites and a number of stylish shopping centers which will be sure to surprise, delight, and complete your experience at ACFS 2017.

We look forward to welcoming you in Korea!

Sincerely yours,

Hak Chul Jang
Chairman, KGS

Chang Won Won
Director of Academic Committee, KGS

PROGRAM AT A GLANCE (TENTATIVE)

Call for Abstracts

Abstract Submission Deadline:
JULY 31, 2017

Presenting authors will be notified of the Scientific Committee's decision regarding acceptance of their abstracts. Please refer to the themes below and visit **www.acfs2017.org** for more details.

For oral and poster presentations.

Themes

Presentations will be organized by theme, so please indicate with your submission which theme you are submitting for:

1. Basic and translational research
2. Diagnostic tools, assessments, and biomarkers
3. Epidemiological studies, observational studies
4. Clinical interventions
5. Community and public health
6. Nursing care
7. Roles of nutrition
8. Physical exercise
9. Others
